

2G

HUMBLE BEGINNINGS

Muzik is a phrase and genre coined by artist, and entertainer, Capo2G, formerly known as Chief Capo to many within the entertainment industry. 2G aka Mr. Booski Lover, was born and raised in Lagos, Nigeria where he developed a passion for entertainment and explored all facets of music. He moved to the UK, and later migrated to Atlanta Georgia, where he started a Music career in 2005.

At the time, 2G (formerly known as Chief Capo) released several local street anthems that garnered major recognition within the Music industry. Shortly after, his focus shifted from a recording artist to a business manager, solely focusing on the business aspect of the entertainment industry, which led to a lucrative business venture managing night clubs as well as artists development/management.

Today, 2G has regained his passion for music and is set to take his career, image, and sound in a new direction. He started with his name change, led by a New genre of Music titled "GMuzik" which can be described as "that feel good music for the G's". There is a lot in store for 2G, he is definitely the one to look out for. His fans will be thoroughly impressed by his overall presentation. From producing great music to building his empire, this G is a force to be reckoned with.
