

Ernesto Lee

Ernesto Lee is an impassioned entrepreneur and technologist from the Miami/Fort Lauderdale Area. For over 25 years Ernesto has been asking hard questions and pursuing tough answers. An original founding member, co-owner and the CTO of Blockchain Training Alliance, an overview of Ernesto's career illustrates a lifelong commitment to pushing the envelope on innovation, and growing opportunities for all around him.

Ernesto has authored BlockChain Programming with HyperLedger Fabric, BlockChain Use Cases with HyperLedger Code Examples, BlockChain for Business Executives and Entrepreneurs, BlockChain Programming with Solidity on Ethereum, WebLogic 12c, WebSphere Application Server 9 with Liberty, Big Data for Analysts, Apache Pig, and Apache Hadoop as part of his Invent the Future series.

He has also written numerous books on cryptocurrency and blockchain technology including CryptoEconomics and BlockChain IoT and Artificial Intelligence. Ernesto's work as a public speaker, writer and author has quickly seen him emerge to be one of America's most exciting thought leaders and expert voices in the field of BlockChain and technology.

As graduate of Old Dominion University (BS, Physics), Virginia Tech (Msc, Software Engineering), and Harvard Extension School (Graduate Certificate, Business Communication), Ernesto has always had a passion about technology and teaching. It has been a cornerstone of Ernesto's career.

Beyond his formal education, Ernesto's career has seen him acquire rich expertise, with robust corporate experience from his time with BEA Systems, Oracle, IBM, Bank of America, and HP, acquired alongside his tenure as an executive and CEO of the Consultant's Network in Fort Lauderdale.
